Coarse: find the object plane

Readiness
Before each trial

“Look at the cross and hold your gaze to begin the next round.”

Opening cue
Objects still hidden

“The object is to the left.”

Turning
Yaw only

“Turn way left.”
“Keep turning left.”

Arrival
Pitch joins in

“Right area. A little higher.”

Fine: find the object

Refinement
Yaw and pitch

“Look way higher.”
“A little higher and left.”

Progress
After measured progress

“Keep going to the left.”
“A bit more.”

On target
Gaze or pointing

“Right there.”
“Yep, that's it!”

Trigger reminder
Target held at the deadline

“Time up. Almost! Don't forget to press the right trigger to select the object.”

As needed during a trial, and at the end

Correction
Overshoot or departure

“Go back a little to the left.”

Wrong selection
A tone, then speech

“Try another object.”

Timeout
25-second deadline

“Time up. Let's shake that round off and start the next.”

Success
Correct selection

“Nice work. You found it on your first selection.”
