

Gaze Study - Post-Voice-Block Measures

Annotated provenance copy - DRAFT

Qualtrics survey	SV_cwsLpEVffEIo9SK
Administration	After each generic or self-similar voice block
Annotation key	Yellow notes identify the source paper, instrument packet or study-created status for each item group.

This annotated PDF is for protocol, IRB and committee review. It records provenance and adaptations; it is not the participant-facing form.

Voice block identifiers

BLOCK_INTRO - Instructions

DRAFT - Complete this form immediately after the current voice block, before starting the next block. The researcher records the condition fields; do not infer or change them.

Source / provenance: Study-created block handoff and researcher-entry instructions; no external instrument.

BLOCK_STUDY_CODE

Study code:

Source / provenance: Study-created administrative field; no external instrument.

BLOCK_NUMBER

Block number (researcher entry):

Source / provenance: Study-created administrative field; no external instrument.

BLOCK_VOICE_CONDITION

Voice condition code (researcher entry):

Source / provenance: Study-created condition label; no external instrument.

BLOCK_ORDER

Condition order code (researcher entry):

Source / provenance: Study-created counterbalancing label; no external instrument.

Workload

BLOCK_TLX
