

Object Search Papers, 2018-2026

Local PDF inventory for the Gaze Contingency study

This folder contains 19 full research papers plus one citation-and-summary PDF, with sortable filenames in the form **Year - First Author - Obvious Short Title.pdf**. It covers immersive VR/AR object search, gaze and head behavior, proximity or directional hints, cross-reality search, and visual-attention guidance.

The 2022 VSVR entry is explicitly a citation and summary for a one-page meeting abstract. The 2026 Radulescu entry is a full-text, reflowed PDF generated from the article's CC BY 4.0 PubMed Central JATS record; publisher pagination differs.
